INDEX TO ABSTRACTS

This index is arranged alphabetically by author, subject and location of the institute or agency in which the study was made. That is, a study on vaccination against tuberculosis at a hospital in Chicago would have entries under the author, **Immunization, Tuberculosis,** and **Illinois.** The page number is indicated after each entry followed by the number of the abstract, for example, 193(933).

NURSING RESEARCH

INDEX TO VOLUME 11 **WINTER, SPRING, SUMMER, FALL 1962**

This index is arranged alphabetically by author, subject and location of the institute or agency in which the study was made. That is, a study on the chronically ill, elderly patients at New York Hospital would have entries under the author, **Chronic Illness, Geriatrics,** and **New York (City).** The page number is indicated after each entry. The following abbreviations are used: (ed.)—editorial; (bk.rev.)—book review; (exc.)—excerpt; (RR)—Research Reporter.
